

FORMATION

École Normale Supérieure (Ulm) Physics diploma
2020-2024.

Master in theoretical Physics
École Normale Supérieure (Ulm) | 2021 - 2023
International Center for Fundamental Physics
First class honours.

Les Houches School of Physics
August 2024
School on Quantum Geometry.

Solvay School
Paris (ENS), Genève (CERN), Amsterdam (UvA)
October-December 2023
9 weeks of High-Energy Physics courses : string theory, AdS/CFT and more.

Bachelor in physics
École Normale Supérieure (Ulm) | 2020 - 2021
First class honours.
Classe préparatoire in Physics and Chemistry
Lycée Clémenceau, Nantes | 2018-2020
Admitted to École Polytechnique, ENS ULM, ENS Paris-Saclay, ENS Lyon.

SCIENTIFIC CONTRIBUTIONS

Publications :
-Borel singularities and Stokes constants of the topological string free energy on one-parameter Calabi-Yau threefolds, S.Douaud, A-K Kashani-Poor. 2412.16140.

-Non-perturbative topological string : From Resurgence to wall-crossing of DT invariants, S.Douaud, A-K Kashani-Poor. To appear.

Talks :
-LPTHE, Jussieu, January 29th 2026.
-Math Physics day in Orsay, December 17th 2025.
-IPHT, Paris, October 28th 2025.
-MITP YOUNGST@R -Physics and Number theory, January 23rd 2025.
-LPENS, Paris, January 4th 2025.

CURRENT RESEARCH INTERESTS

-Resurgence and instantons in topological string.
-Wall crossing of BPS/ DT invariants on Calabi-Yau 3-folds and spectral curves.
-Quantization of Moduli Spaces.

RESEARCH/SCIENTIFIC EXPERIENCE

Non perturbative topological string theory
LPENS, Paris
Internship : September 2023-August 2024
PHD : September 2024-currently
Supervised by Amir-Kian Kashani-Poor.

Toponium Physics
LPTHE Jussieu, Paris | April-July 2023
Master thesis in theoretical physics.
Supervised by Benjamin Fuks.

Conformal block and integrability
Uppsala University, Sweden | March-July 2022
Master 1 internship in theoretical physics.
Supervised by Dmytro Volin.

Edge modes in fractional quantum Hall effect
ENS ULM, Paris | July 2021
Bachelor experimental physics internship.
Supervised by Gwendal Fève.

Physics Olympiad 2019
Qualification at the french physics Olympiad.
Experimental internship to prepare for the international Olympiad.

Analysis of historical paper
On the electrodynamics of moving bodies, A.Einstein, 1905.

TEACHING EXPERIENCE

Teaching assistant
Mathematics for Phycisists, undergrad course, ENS ULM, Paris,2024-Currently.

Tutoring
Physics and mathematics
From middle school to undergrad level.

Conference for general audience
Preparation of theoretical physics courses for a general audience, with Dmytro Volin. Stockholm, Spring 2022,

Cours aux Ernests
Theoretical physics courses for non-scientifics. ENS ULM, 2023.

NUMERICAL SKILLS

Python (intermediary)
Mathematica (advanced)

LANGUAGES

French (Native)
English , C1 level (CAE certification)
Spanish, B1 level
